At Zanzi Trekking, we attach great importance to price transparency. That is why, we would like to offer you detailed prices and information about our different services.

Based on the performance / value of these services, we could classify our packages in 3 categories: **Budget, Mid-Range and Luxury** (details, see last table in this document). You could, thus, depending on your budget and your wishes choose one of these categories.

But - don't worry! We ensure you and independent of the category you will choose that we will make together this experience a once-in-a-lifetime adventure.

- **Note:** All prices in the following lists are in USD (\$) and don't include the staff tips (on a voluntary basis).
