

- Newsletter func is not working yet.
- We still can't send files in live chat -> really important.

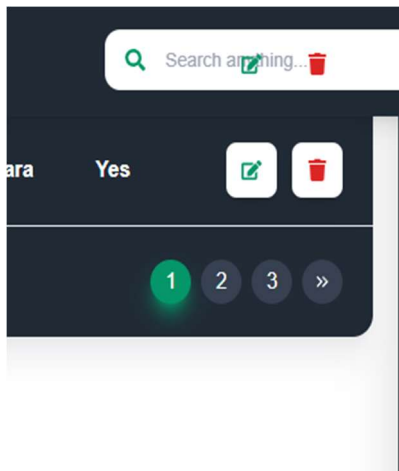

-Message deleting func is not working

-Chat brief in dashborad is not yet implemented

-When adding accomdation the view is over laying

-The accomodation adding func is not working properly, when it has more then one image only 1 is displayed

When edditing a trip the old images and accomdations and meals are not displayed
