Title of the whatsapp otp message	Not started ▾	
Email speed issue after otp send	Not Required ▾	This has been an issue. Has it been tested?
Term and condition / privacy policy link to their pages In the accept term and condition / privacy policy section	Fixed ▾	Does this open in a new pop up window to allow users to view them prior to accept?
In profile setting, As a client (in the industry - expertise are not their so some industries) had to add new category (industries expertise and skills not automatically populating)	Fixed ▾	
While adding certificate dates should be mandatory	Fixed ▾	This says should be mandatory ?? i think you meant SHOULD NOT BE!
In profile setting their is not button logic how the data is saving	Not Required ▾	
Profile picture on home page not showing	Fixed ▾	
Login as client when click on want to hire in header shows the landing page of hire Instead of showing to create a job or show peoples that are available to hire	Fixed ▾	
When login as client, in the header clicked on the dropdown of search their are jobs that should not be their because jobs are not for clients Also their are not other dropdown data is showing the search	Fixed ▾	
When open profile dialog (directory page) in the bottom the data is misleading jobs 95+ not created but should be completed and earning and other stuff	Not started ▾	
In profile setting image profile should not be stretched or squeeze	Fixed ▾	
In the referral code page their is no copy referral button	Not started ▾

And also the payout setting not working First client should configure payout setting before posting a job		
Please change anywhere were in our website we ask for OTP , change to verification code . As most people outside developers have no idea what OTP means	Fixed ▾	
Public view profiles are only seen in english, it does not translate with the page. So it should translate the profiles depending on chosen language.	Not started ▾	
IN PUBLIC VIEW , The plan details don't line up properly horizontally with the check mark in each horizontal cell in desktop view, i assume is the same in mobile as well. However, when you view it in the entrepreneur profile, the plans are well adjusted. Please make sure this is consistent throughout all pages!!!!	Not started ▾	
Please remove all the mockup jobs in the search jobs section.	Not started ▾	
Entrepreneur type needs to show in the search and match the entrepreneur type chosen. For instance, to find UMAIR I need to go to EMPRENUR DIRECTORY which is fine as this is a master list of ALL entrepreneurs that have paid . however, when i try to find umair by his profile type (freelancer) it does not show up on search freelancer etc. all users that pay , their profile should also be searchable by users depending on their plan per the 3 PAID user types.	Not started ▾	
MAKE SURE ALL PROFILE COLORS OF PAID ENTREPRENEURS MATCH THE PROFILE BACKGROUND PER SIGMA DESIGNS . The current profiles seen are all in BLACK and I assume this is erroneous as each PAID entrepreneur has a specific color that matches the plan chosen for branding purposes.	Not started ▾	
MY NEW JOB POSTED IS NOT SHOWING IN THE JOBS SEARCH DIRECTORY!	Not started ▾	
My profile as a client should not be showing in the emprenur directory . the directory should only be for users offering services . per plans only PAID plans show up in the directory.	Not started ▾
